TESTIMONY PRESENTED BEFORE SENATE COMMITTEE.

the American Sugar Refining Company-Says the Trusts Make No Advances to Cuban Planters.

WASHINGTON, May 2.-Arthur Donner, treasurer of the American Sugar Refining company, testified before the senate committee on Cuban relations concerning American holdings of Cuban sugar.

He said that Mr Havemever's state ment yesterday to the effect that his company had purchased 93,000 tons of sugar since the first of January last was correct. No more Cuban sugar could have been bought, as none could have been purchased without his knowledge as the treasurer of the company. He promised Senator Platt to send to the committee a memoranda showing the purchases made and giving dates. All the sugar which had been purchased had, he said, been paid for

Senator Platt called attention to the discrepancy between Mr. Havemeyer's statement as to purchases amounting to 93,000 tons and the returns made by the War department, placing the American company's option at 3,285 tons up to March 25, but Mr. Donner was not able to explain it. Responding to questions by Senator

Teller, Mr. Donner confirmed Mr. Havemeyer's statement, that of the trust's purchases of Cuban sugar 45, 600 tons still remain in Cuba. He also with brokers, principally with Zaldo & Co., Francke & Co. and Czarnokow & Co. of Havana and New York, and did not know the names of the producers. The American company had made no advances to the Cuban planters and had not advanced any money to the Cuban banks for the planters.

While he did not know, he said, he presumed there were other purchasers of Cuban sugar besides his own comnany in the field. Asked as to realty holdings in Cuba, he said that the trust had none there. He knew noth ing of the private holdings of stock holders of the trust.

"You have taken some interest in securing a reduction of sugar duties by congress, have you not?" asked Mr.

"I have not," was the reply Senator Platt asked:

"So far as you know, has the Amer

ican Sugar Refining company taken any interest whatever in forwarding or opposing the reduction of the duty on Cuban sugar?" "No, sir: I don't think so."

Senator Teller-You spoke of it as a corporation? "Yes."

"Do you know whether the "tockholders have taken any interest as such in the reduction?" "I do not: I know nothing about

Henry C. Mott. purchaser of raw sugar for the trust, was the next witness. He said he had acted in that capacity for the last five years and that he buys all the raw sugar for the company except the Louisiana sugars. He confirmed previous statements that the trust had bought 93.-600 tons of Cuban sugar since January 1. He said that in the course of the year the American company purchases 50 per cent of the Cuban sugar product and that he supposed the other 50 per cent is secured by other sugar refiners in the United States.

Winter wheat has continued to deteriorate in condition in most parts of the state. In some southern counties considerable damage has been done and the crop will be very light under the most favorable conditions for the rest of the season. In most counties however, generous rain soon would place the crop in good condition. Oats are a poor stand generally. The past week was especially unfavorable for the crop; besides the damage from wind and dust the frost in central and northern counties did some damage to oats. Grass and small grain have grown slowly, but the conditions were much improved in the counties north of the Platte river by the generous rain.

Valuation for Assessments. LINCOLN. Neb., May 3.-The State Board of Equalization will meet Monday to begin the work of fixing the valuation of railroad, telegraph and telephone property for the purpose of taxation. Some headway may be made at this early meeting, but it is not likely that the task will be finished before May 15.

"All the railroad, telegraph and telephone companies have reported on their property and we have their figures prepared in tabulated form for the consideration of the board." said Auditor Weston recently. "The various companies have listed their property on prescribed schedules, but only a few of them have submitted figures as to valuation. That is what the board must determine."

"Will the valuation of railroad property be raised?"

Fire Again Hits Aberdeen.

ABERDEEN, S. D., May 2.-The second disastrous fire within a week visited this place early yesterday morning when flames, aided by a gale destroyed the opera house.

The strong wind threatened to drive the fire into the business portion of the city, but the fire department, aided by a falling rain, confined the blaze to the structure.

The origin of this conflagration, as well as the fire which destroyed the grain palace at this place a few days ago, is no doubt incendiary.

States army are sympathetic. The Filipinos, he said, were in a resentful and vindictive opposition to Spain and any active force on their part against Spain naturally helped the United States, and vice versa, but, he said, there was a distinct purpose through the intercourse between the Americans and the Filipinos to repudiate the idea of direct co-operation United States to a policy.

Geo Haskell Wilson's partner in crime, is which in any way committed, the in this city. Wilson was shot second battle. Haskell was captured soon after without resistance. Houck was shot in the foot and in the hand. His injuries are not serious.

> The battles resulted from a chase after horse thieves in Greeley. Sher man and Valley counties. Thursday night six horses were stolen, two each from Farmers Prichard. Peterson and Giles, living about seventeen miles northeast of Greeley Center. The trail of the thieves was at once taken up.

The pursuers were aided by Detec tive C. M. Franklin and Malone's bloodhounds from Lincoln. The posse pursued the thieves until ex-Sheriff Houck and Sheriff Kake came upon them in the sand hills. The horse thieves turned on their pursuers and battle ensued in which Houck was vounded, being hit twice. Many shots vere fired by both sides. Finally the thieves escaped. The chase contined and in the afternoon Meyers and the Hutchins brothers again got within range of the fugitives. They at once reopened fire.

The shooting attracted other sections of the pursuing party, scattered over two or three miles of sand hill territory and they began closing in on the thieves. When they reached the first party they found that Wilson had been killed and that Haskell had been taken prisoner.

From near Spaulding, where the horses, were taken, the thieves took a southwesterly direction into Sherman county. Then they moved northwestward into Vailey county, where the pursuers, by cutting across country, soon overtook them. They passed through Loup City with the ... x horses. When they reached the sand hills they apparently thought they were on safe ground and proceeded more lessurely.

The six horses were recovered the two men having them in their possession. They have been identified by their owners. Haskell admits that he and Wilson stole them.
